

STYH 100 Rules Tariff

Item 2208 Return Goods Authorization (RGA'S) Rate Charge Calculations

Section 01

Effective 3-14-2022

---

When Styline Logistics is requested to pick-up and return items to the original shipper that were previously delivered by us, then the following rate charges will apply:

- **Customers with established Contracted Rates** – Freight will return at double freight charges based on the current contract plus fuel surcharge. The rate will be calculated from the return address to the original pick up location plus fuel surcharge.
- **Non Contract Customers** – Freight will return at spot quoted rates.

If the shipment occupies more than 18 linear feet, then Item 2300 Linear Foot Rule Application and Pro-rate Calculations will apply.

If the shipment is a Truckload shipment, then Styline Logistics will rate the shipment at our current Truckload Mileage rates based on the actual mileage from origin to destination plus the current applicable TL FSC amount.
